Use this measuring guide and questionnaire to help estimate a finger size using an existing ring. Contact us with the results to determine a starting point.

Step 1: Confirm dimension calibration using a ruler or coin.

Step 2: Place ring over best fit circle. You shouldn't be able to see the outline when it's the correct size.

Step 3: Fill out the questions below about the ring you are using as a reference.

1. What hand is this ring worn on? Left Right
2. What finger is this ring worn on? Pinky Ring Middle Index
3. What is the width of the band?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2 mm	3 mm	4 mm	5 mm	6 mm	7 mm	8 mm

4. Approximate height and weight of ring wearer?

Height _____ Weight _____

5. Are the wearers knuckles larger in size compared to the finger?

No Yes
